

# FÉLIX ORAIN

Web Developer

+33778764454    felix.orain@gmail.com    felix-orain.com    France

## EXPERIENCE

Front-End Web Developer

Lifo.AI

2025 - Present

- Designed and integrated modular UI components using **React, TypeScript, and Tailwind**, adhering to the design system.
- Developed the landing page and application interfaces using **Next.js**.
- Implemented **automations** (emails, workflows) and resolved bugs.
- Collaborated in an agile team environment: sprints, code reviews, product iterations.
- Stack:** React, Next.js, TypeScript, Supabase, Tailwind.

Web Integrator / Photographer

Freelance

2020 - Currently

- Developed showcase and e-commerce websites (Shopify, WooCommerce, WordPress, Wix) using HTML, CSS, and JavaScript.
- Published **2 photo books** through e-commerce, generating over 600 sales.
- Launched responsive interfaces optimized for SEO and conversion.

Art Director & Web Contributor

YouTube

2020 - 2024

- Art direction for the Wizzy Gang channel (**150,000 subscribers**): visual identity, branding, and digital content.
- Developed an interactive landing page for the film *Civilisation*, helping attract **5,000 viewers**.
- Partially redesigned the WordPress site, incorporating lightweight JS/CSS to enhance UX while collaborating with a developer.
- Created design systems to standardize materials for web and social media platforms.

## EDUCATION

Web Development Bootcamp

Le Wagon

- Intensive learning in full-stack development with Ruby on Rails, JavaScript, HTML/CSS, and PostgreSQL.
- Collaborated in teams using Git, pair programming, and agile methodologies.
- Designed, deployed, and presented complete web applications in real-world conditions.

Front-End Training in React, Tailwind, TypeScript, and Next.js

Udemy

- Advanced knowledge in React and Next (hooks, state management, components, routing) using TypeScript.
- Created modern, responsive interfaces with Tailwind CSS.
- Developed server-side applications with Next.js and global state management using Redux.

Bachelor's in Applied Foreign Languages

Université de Rennes 2

- Fluent in English, Italian, and French.
- Trained in international business and digital communication strategies.

## PROJECTS

Lifo.AI (MVP) | TypeScript, Next.js, Supabase

- <https://clownfish-app-y2uru.ondigitalocean.app/>
- Team MVP: stock management app powered by AI.

Interactive GIS Application | React, Leaflet

- <https://data-visualizer-mocha.vercel.app/>
- Interactive map allowing for area tracing, filtering, and retrieving real-time data. Enhanced visualization through filters and charts.

Movie Watchlist | Built with React, Tailwind, and TMDB API

- <https://movies-watchlist.vercel.app/>
- A film management application featuring lists, ratings, comments, and enriched data from TMDB.

## PROFILE

Full-stack web developer specializing in **React, Next.js, and TypeScript**, passionate about creating high-performance, user-centered interfaces. With experience in startups and freelance work, I design and deploy responsive web applications integrated into agile workflows. I am eager to join a technical team where I can contribute to innovative projects while continuing to grow my skills.
